No. 881.—The following resolution of the Government of India is republished:—

HOME DEPARTMENT.

ESTABLISHMENTS.

Simla, the 2nd *September* 1921.

No. 2068.—With reference to the Home Department Resolution No. 2068, dated the 16th December 1920, it has been decided that the orders regarding the classification of the judicial allowances drawn by officers holding superior judicial appointments in the Indian Civil Service as judicial pay shall take effect from the 22nd November 1920, the date on which the Secretary of State's orders were received, and that only those officers who are on duty, whether in a substantive or an officiating capacity, in a superior judicial post for which judicial pay has been sanctioned by the Secretary of State are eligible to receive judicial pay. The privilege leave allowances of officers holding a lien upon such a post will, however, include judicial pay. If such officers are deputed on special duty they will not be entitled to receive judicial pay. It will be a matter for consideration in each such case at the time of deputation, whether it is necessary, when deciding whether any deputation allowance should be granted, to grant any compensation for the loss of judicial pay. The powers of the local Governments regarding the grant in such cases of deputation allowances are, as hitherto, limited by the provisions of article 81 of the Civil Service Regulations. That is, no addition by way of compensation for the loss of judicial pay to the maximum amount of deputation allowance which may be granted by a local Government is permissible, but in applying the percentage in article 81 of the Civil Service Regulations judicial pay may be included with other pay for the purpose of calculating the maximum amount of deputation allowance payable.

No. 110.—The following notifications of the Government of India are republished:—

FINANCE DEPARTMENT.

LEAVE AND APPOINTMENTS.

Simla, the 31*st August* 1921.

No. 1824-F.E.—It is hereby notified for general information that an examination will be held at Allahabad in December 1921 for the selection of probationers to fill eight vacancies in the General List of the Indian Audit Department (formerly called Indian Finance Department). Only those candidates will be entitled to compete at the examination who have been nominated by the Government of India in the Finance Department.

PENSIONS AND GRATUITIES—FUNDS, SERVICE AND OTHER.

The 31*st August* 1921.

No. 1823-F.E.—A revised edition of the Indian Civil Service Family Pension Regulations embodying all alterations approved to date is published below for general information. A reprint of the Regulations will be issued shortly.

THE INDIAN CIVIL SERVICE FAMILY PENSION REGULATIONS, ESTABLISHED UNDER THE ORDERS OF THE SECRETARY OF STATE FOR INDIA IN COUNCIL, FOR THE PROVISION OF PENSIONS FOR THE WIDOWS AND ORPHANS OF COVENANTED CIVILIANS IN THE SERVICE OF THE GOVERNMENT OF INDIA.

The following regulations are designed to secure suitable provision for the widows and orphans of members of the Covenanted Indian Civil Service not being subscribers to the Bengal, Madras, or Bombay Civil Funds.

The Secretary of State for India in Council reserves to himself the absolute right to regulate from time to time the contributions to be required from Civil Servants under these regulations and to make any alterations in the regulations themselves that may appear to him equitable: provided always that the scale of pensions fixed thereby shall not be reduced in the case of actual incumbents. The Secretary of State in Council will endeavour to adjust the contributions to be levied from members exactly, so that they shall neither be too large nor too small to supply the

pensions provided by these regulations. But if it should appear on experience that they have been fixed too low, the Government will not require any supplementary retrospective payments; and if they are found to have been fixed too high, no claim to refund will be admitted.

No insurance fund is established by these regulations. The contributions will be credited and the pensions charged directly to Indian revenues as civil receipts and charges. But in order to adjust the rates of contribution from time to time to what is necessary to supply the pensions provided by these regulations and no more, a separate *pro forma* account will be kept of all contributions levied and all payments made under these regulations and of the interest which would have been allowed upon such contributions if a mutual insurance fund had actually been established.

In accordance with the principle announced in this notification that the Government does not intend that the pensions provided by these regulations shall bring any charge on Indian revenues in excess of the amount specially sanctioned in aid of the pensions and for the cost of management, the rate of interest to be allowed in this *pro forma* account will be the rate which may be fixed from time to time by the Secretary of State in Council upon a consideration of the market rates of the day. Conversion of sterling into rupees and of rupees into sterling in transactions under these regulations and in the *pro forma* account shall be made at the market rate of exchange, except where otherwise indicated in the regulations.

All needful statistics of ages, births, marriages, and deaths will be carefully registered, and these statistics, with the *pro forma* accounts, will be submitted at such periods as may be determined by the Secretary of State in Council to such actuary or actuaries as he may select, with instructions to investigate and ascertain whether the rates of contribution are such as will, at the rate of interest then to be reconsidered and refixed, supply the pensions payable under these regulations and no more. The expense of such actuarial enquiries and reports shall be borne by the State.

Upon the report of the actuary or actuaries the Secretary of State in Council will order any necessary alterations in the rates of contribution.

The report of the actuary or actuaries, with the orders of the Secretary of State in Council thereupon, shall be published in the *Gazette of India* and no alteration ordered in the rates of contribution will take effect before the beginning of the month following the date of such publication. No retrospective adjustments will be made.

The benefits provided at the cost of the State are shown in the regulations; but should it at any time appear from a valuation that the aggregate liabilities on account of these benefits, when the pension list shall have reached a normal state, will exceed £5,000 per annum, they will be subject to such reduction as may be necessary to restrict the assistance to £5,000 per annum, but the reduction shall in no case affect the benefits payable to incumbent annuitants.

1. Every covenanted civil servant (except non-Europeans admitted as probationers prior to August 1919*), not being entitled to the benefits of any of the late Civil Funds, must, as a condition of his appointment, make the contributions and payments prescribed by these regulations according to his class, whether he is married or unmarried, and with or without children. Contributions commence from the date of arrival in India.

" III.—From 12 to 15 years' completed service.

The monthly contribution for sons continues until 21 years of age, and for daughters until marriage.

No monthly contribution under Tables VII and VIII is payable by a member after his retirement from the service on an annuity; but on marriage or remarriage after retirement the provisions of article 23 apply to him.

Arrears.

11. Interest at the rate of 5½ per cent per annum is charged on arrears. Donations become due from the date on which the liability is incurred, viz., on marriage or, in the case of donations in Table VI, on the birth of a child; but interest is not charged on sums paid within one month from the date on which they become due.

Reports of Marriages, Births and Deaths.

12. A civil servant who is married at the date of his admission into the service must report the fact of his marriage on his arrival in India, and the names and dates of birth of his children if any have been born to him. A member in the service must report his marriage, or the birth of a child born in wedlock, or the death of his wife or child, within one month of the occurrence. These reports must be made in accordance with the instructions given in the appendix, page 953.

13. A member in the service or who was married before retirement must report the birth of every child born alive; but if a child die before it is 30 days old, no payment in respect to it will be required. If the report of birth be not made within one month of the occurrence, a fine of 2s. will be imposed, and an additional 2s. will be charged for each succeeding month's delay. After 12 months' delay medical evidence as to the state of the member's health must be furnished in order that it may be determined whether and, if so, on what terms, liability for orphan's pension shall be accepted.

14. If the report of a marriage be not made within one month of the occurrence, the donation payable will be increased ½ per cent, and interest thereon charged from the date of marriage. After six months' delay the donation will be increased 5 per cent, and interest charged as above. After 12 months' delay, medical evidence* as to the state of the member's health must be furnished in order that it may be determined whether and, if so, on what terms, liability for widow's pension shall be accepted.

15. In the event of the report of a marriage or the birth of a child not being made by a member during his lifetime, in accordance with the rules, the widow or child will not be entitled to any benefits.

NOTE.—The provisions of Articles 14 and 15 are not to be read as implying an option of omitting or postponing any report that a subscriber is required to make under these Regulations. Intentional neglect to report is a breach of discipline.

*See Form 19 in appendix, page 951.

Posthumous Child.

14. Provided the birth of a posthumous child is reported within one month of its occurrence and the contribution required by the regulations has been or is being paid for the father's youngest child, the contribution required by the regulations has been or is being paid for the father's youngest child, if any, living at the time of his death, a pension will be granted to the child without any payment if the child is born of a marriage contracted while the father was in the service. If, however, the child is born of a marriage contracted after the father's retirement from the service, pension will only be granted if, in addition, the certificate of health required under Article 23 had been furnished by the father himself at the time of his marriage or subsequently, and the donation prescribed in Table VI, paid as though the father were alive at the date of the child's birth.

Duration of Pensions.

17. If a widow remarry she will retain half her pension during coverture, but if she again become a widow she will be entitled to revert to full pension as widow of her first husband, or, if her last husband have been a contributor, to receive a pension at her option as his widow. A widow can only receive one pension. Reversion to the half rate takes effect from the commencement of the quarter following that in which the re-marriage occurred: the full pension is restored from the day following that on which the pensioner again becomes a widow.

16. The pension of a male orphan is payable until he attains the age of 24 years unless he was admitted to pension with effect from a date prior to 1st April 1914, in which case his pension is payable until he attains the age of 21 years only.

19. The Secretary of State for India in Council will be prepared to consider an application for the commutation of a portion of the pension of a son with a view to the proceeds being applied to his advancement in life, provided that he has attained the age of 18.

Each case will be decided on its merits.

When the pension is payable out of India, an application should be addressed to the Director of Funds, India Office—by the mother or guardian, until the pensioner attains the age of 21, and thereafter by the pensioner himself.

When the pension is being drawn in India from a Government Treasury there it will rest with the Government of India to deal with the application, which should be addressed to the Accountant-General, Central Revenues, Calcutta.

20. The pension of a female orphan continues until the end of the quarter in which she marries, and then ceases absolutely. It does not revive on widowhood.

Good Conduct.

21. The pensions provided under these regulations shall in all cases be held during good behaviour only, and will be withheld if any pensioner is found to be leading an immoral life, or on proof of any gross misconduct. In any such case the order of the Secretary of State for India in Council, or, when the pension is being drawn in India from a Government Treasury there, the order of the Government of India shall be final and conclusive.

Alienation of Pensions.

22. A pension paid under these regulations may not be transferred or assigned or in any way alienated from the pensioner to whom or for whose benefit it is payable.

Retired Members.

23. A member who marries after he has retired from the service on an annuity may, if he think fit, provide pension under these regulations for his widow or for his children resulting from such marriage or for both on the following conditions:

(1) That reports of occurrences are made in accordance with the requirements of Articles 12 and 13, and subject to Articles 14 and 15, as in the case of members in the service.

(2) That a certificate of health, signed by two qualified medical practitioners showing that he is free from any bodily complaint of a dangerous tendency, and that he is believed to be a good average life* is furnished either—

(*a*) with the report of the marriage if he wishes to provide pension for his widow and for children resulting from the marriage, or for his widow only or—

(*b*) with the report of the birth of the first child resulting from the marriage, if he wishes to provide pension for his children only.

(3) That the donations on marriage (*see* Tables IV and V), or on the births of children (*see* Table VI) are paid (*see* Articles 9 and 11, and, as regards posthumous children, Article 15).

24. An annuitant may withdraw his name from the list of members; but he will not be entitled to any refund of his payments under these regulations.

Members who resign the Service before becoming entitled to an Annuity.

25. A member who resigns the Service before becoming entitled to an annuity will ordinarily cease, *ipso facto*, to be a contributor, and to that event he will have no claim to any refund, and his family will not be entitled to any pensions under these regulations; but the Secretary of State in Council may, in special cases, allow members who resign without permission to continue their subscriptions. When such permission is granted, the member will be required to subscribe until his 60th birthday.

Dismissed Members.

26. A subscriber who is dismissed the Service by competent authority will cease, *ipso facto*, to be a contributor. He will have no claim to any refund, and his family will not be entitled to any pensions under these regulations.

Declarations.

27. Declarations as to continued widowhood and the survival of children must be furnished quarterly to the High Commissioner, India Office, or to the proper officer in India.

*See Form (D) in Appendix, page 958.

APPENDIX.

Reports and applications under these Regulations should be made—

1. To the Accountant General, Central Revenue, Calcutta, when the member is drawing pay in India or in a Colony to which he has gone direct from India.

2. To the Director of Funds, India Office, Whitehall, London, S.W. 1, if the member is drawing his pay in England or in a Colony to which he has gone direct from England.

No. 111.—The following Circular is published :—

No. T.M. 16-4, dated Fort St. George, 19th September 1921.

From—W. D. Woollam, Esq., Offg. Accountant-General, Madras.
To—All Heads of departments and Officers in the City of Madras.

Sir,—I have the honour to address you on certain changes in the present system of payment of bills after pre-audit in this office. At present, a person having a claim against Government presents at the counter of this office a bill complete in all respects, *including an acknowledgment of the money*, with a receipt stamp where necessary and gets a brass token in exchange. After the bill has been audited, payment is made on surrender of the token in cash for amounts of less than Rs. 100 and by cheque on the Imperial Bank of India in the case of larger amounts. In the case of cash payments, the signature or mark of the person receiving the money is taken on the bill, but no written authority is generally produced by him to the effect that payment should be made to him, and except the fact that he surrenders the corresponding token, there is little to establish with identity. As the existing system is found to be defective in many respects the Auditor-General has authorized the introduction of the following revised procedure with effect from the 1st October 1921 :—

(i) Bills which should only be claims and not acknowledgments may be presented in person or by a messenger or through a Bank or other authorized agent or even by post. That is to say receipts or stamps will not be taken on bills when originally presented and the party preferring the claim will merely sign the bill in acknowledgment of the correctness of the claims entered therein. The words "contents received" in the bill forms will be struck out. No separate endorsement to pay any peon or messenger is necessary on the bill. A Gazetted officer who presents his claim for salary or leave allowances through a Bank must endorse it in favour of the Bank. When contingent bills are endorsed for direct payment to the suppliers, they may be instructed not to affix receipt stamps to the bills, but merely to attach the usual tradesman's demand bills showing details of the claim. In the case of bills presented by officers of the Salt Department, these remarks apply to the main bill and not to the accompanying simple receipt. Where bills are presented in duplicate as in the case of Port Fund establishments, etc., the instructions apply to the bills on which payment is made and not to the coloured counterparts submitted along with them, which may continue to be in the old form.

(ii) If payment is to be made by cheque the bill should show in whose favour the cheque is to be drawn—self, Bank or authorized agent.

(iii) Gazetted officers or non-gazetted officers empowered to draw their pay in salary bill forms may, if they prefer, take a "crossed" cheque instead of the usual open cheques issued on the Imperial Bank. As a crossed cheque can only be credited into a Bank Account, it is free from the risk of misappropriation by peons or messengers who may be sent to get it. When a 'crossed' cheque is desired the fact may clearly be noted in the bill.

(iv) Unless there is a special request on a bill for cash payment no bill will be paid in cash if the total of all the bills received from one party at the same time exceeds Rs. 20.

(v) Only 'crossed' cheques will be issued for contractors, etc., to whom contingent bills are endorsed under paragraph 126 of the Madras Treasury Manual, Volume I.

(vi) As at present, a brass token will be issued for every bill presented at the Counter; the token must be carefully preserved and returned along with the receipts and the advice referred to in the next two clauses.

(vii) As soon as a bill is passed, an intimation to that effect will be issued in the following form :—

"Your bill for Rs. received on the has been passed for Rs. (If any disallowance is made the reasons therefor will be explained on the reverse of the form). Please send your messenger with your acknowledgment duly stamped, where necessary, in the form annexed, with instructions to finally hand it over to the paying officer *after actual receipt* of the cash or cheque. Token No. should accompany as evidence of identification in addition to signed acknowledgments."

Crossed cheques issued to contractors and to other officers at their request will if so desired on the bills be sent to their addresses by post but in such cases, the receipt of the cheque must be acknowledged by return post and the token and

stamped receipt referred in the next clause sent within *two* days. Failure to do this will result in forfeiture of the privilege of having cheques sent by post.

(viii) As soon as the intimation is received, the payee may either in person or through messenger take payment at the counter of this office on presenting the token issued to him, and the receipt in the following form which is being printed:

"Received by cash/cheque Rs. from the Accountant-General, Madras, in payment of bill No. dated on account of ." The intimation referred to in the previous clause if received should also be produced as far as possible as a further means of identification. In the case of bills for establishment or salary which are due for payment on a particular day (the first of the month), it is not necessary for the payee to await the advice of his bill having been passed, but send the token and receipt to take payment. When messengers are sent to take payment they must be instructed to show the receipts first to the paying cashier to his assistants, who will after comparing the signature and amount therein, etc., with those on the bills, pay cash or hand over the cheque to them. The messenger must then sign his name or put his mark on the receipt and surrender the token. This completes the transaction. It must be understood in this connexion that the payee when he receives money through a third party does so at his own risk and that Government is in no way responsible for loss and will hand over the cheque or cash to any person presenting (*a*) the token if any that has been given to the messenger and (*b*) what purports to be the payee's receipt for the amount claimed. It is therefore recommended in the interests of the payees that, as far as possible, the same messenger may be sent to collect money at the office and that he be literate.

(ix) The receipt referred to in the previous clause will be signed by the head of the office in the case of bills of establishment, travelling allowance or contingencies, by the drawers in the case of countersigned bills, by the gazetted officers in respect of personal claims, by Bank's agents or contractors in the case of bills endorsed to them. In the case of firms especially, the receipt should be signed by the same party as has signed the demand bill, so that there may be no delay in payment due to the necessity of having to verify the new signature. The receipt should be stamped in the cases of personal claims or bills for services rendered for over Rs. 20 and in the case of all bills chargeable to Port funds for over Rs. 20, whether they are in respect of the establishment or contingencies or of the officers. No stamp is necessary for the receipts given in respect of pay, travelling allowance or contingencies of Government *establishments* except where the drawer of the bill is the sole payee of its contents, e.g., a Sub-Registrar's pay bill drawn on an establishment bill form, and if the amount is over Rs. 20.

(x) Payees should communicate with this office (Accounts section) in all cases in which payment has been delayed beyond one week from the date of presentation of the bill.

(xi) Refund claims are at present either paid out of the permanent advance and billed for on a contingent bill, as in the case of Registration department, or drawn on separate bills and handed over to the party for presentation at this office stamped where necessary, or drawn on refund bill form by the sanctioning authority to be subsequently remitted to the party by money order or otherwise. In the first case, the parties' receipts must accompany as before, and the drawing officer furnish the simple receipt referred to in clause (viii) to the Cash section of this office at the time of taking payments. In the second case, there must be a written endorsement on the bill to issue cheque or pay the amount (when less than Rs. 20) to the party direct, and it is preferable that his signature be also taken on the bill to facilitate comparison with the signature on the receipt furnished by him at the time of taking payment. In the third case, the simple receipt will be presented by the drawer of the bill at the time of taking the payment, and the parties' receipts should be subsequently forwarded to the Accounts branch of this office.

(xii) There are certain cases in which payments are made on the claims of persons who are not in Government employ, without the countersignature of any Government officer, e.g., stipends and scholarships in private schools. The procedure described above will apply *mutatis mutandis* to bills presented by them and although all possible publicity to the new procedure is being given by the insertion of this circular in the forthcoming issue of the *Fort St. George Gazette*, it is desirable that such officers be further specially instructed by officers of the Government departments concerned.

3. Under the new system, the Cash department of my office has to compare signatures, and I therefore request that these specimen signatures of each officer in the city who is empowered to draw bills may be furnished *at once*. Contractors to the Hospitals and other institutions who have now got the privilege of getting contingent bills endorsed to them may also be instructed to furnish at once specimens of their signatures to avoid any delay in the payment of their claims. Banks and other authorized agents who collect the allowances of their constituents, and firms who may present the claims at this office, are requested to furnish at a very early date a complete list of persons authorized to sign on their behalf, with their specimen signatures, and to kindly intimate changes in *personnel*, as soon as they occur. All information required in this paragraph may kindly be addressed to the "Cash department" of this office.

4. I request that these instructions may be carefully studied and that drawers of bills will co operate with my office in working the new system in respect of the pay bills for September which are payable on the 1st of October. Advices will be issued as soon as bills are passed in audit, but as pointed out in clause (viii) of paragraph 2 above, drawers of bills due for payment on the 1st of the month need not await the advices before sending the messengers with the token and the receipt. There may be some delay in taking payment on the 1st October as the signatures and amounts in the receipt will have to be compared in the Cash section with the entries in the bills and cheques cannot be handed over as fast as tokens are handed in, as heretofore. Special arrangements are being made to have the Cash section of my office open at 9 a.m. on that day.

5. The procedure in respect of pension payments or in the disposal of bills which are passed in this office for payment at mufassal treasuries remains unchanged.

P. L. MOORE,
Acting Secretary to Government.

INDIGO CROP OF 1921-22—FIRST REPORT.

[On an average of the five years ending 1919-20, the area under indigo in the Madras Presidency has represented 53·3 per cent of the total area under indigo in British India.]

The area sown with indigo in the Madras Presidency is estimated at 114,600 acres as against 69,800 acres on the corresponding date last year, an increase of 64 per cent.

The increase is general, but is most marked in Guntur, Kurnool, Nellore and South Arcot districts.

The increase in the Deccan and Guntur is due to the favourable south west monsoon rains in June and July, and the demand for indigo at reasonable prices after March 1921 which is keener than during the corresponding months of last year. In South Arcot the season has been very favourable and the yield good, with the result that several closed vats have been opened and the preparation of indigo from the first cutting is in progress.

The possible yield is about 1,400 tons of dye.

Figures by groups of districts are given below :—

NOTICE TO MARINERS.

No. 738.

CHINA—EAST COAST—SHANGHAI DISTRICT.

(Yangtze river—North channel entrance, Tsungming crossing—Former report of sudden shoaling incorrect.)

Referring to Special Notice to Mariners No. 388, notice is hereby given that a recent Examination of the Tsungming Crossing proves the former report of a sudden shoaling, with a depth of water of only 10 feet between the West Spit Buoy and the Crossing Buoy, to have been incorrect. The depth of water on the Tsungming Crossing now averages 3 feet less than that shown on the Marine Department Chart No. 2—Woosung to Flower Point, re-issued in March 1921, the least depth of water found between the West Spit Buoy and the Crossing Buoy being 18 feet at low water of extraordinary spring tides.

A copy of the recent survey can be seen at the Coast Inspector's Office.

Caution.

As the Tsungming Crossing shows signs of probable further deterioration in the near future, great caution should be exercised by navigators using this channel.
